An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claim 1, line 13, the phrase - - end of said filtration chamber - - has been inserted after the word "part".

This change has been made to make the Claim consistent with the disclosure found at page 17, lines 1-7.

The following is an examiner's statement of reasons for allowance: While at least two references made of record herein disclose that it is known in the filter art to produce a centrifugal force on fuel entering a filter chamber in order to help separate particles from the fuel, none of the references found would have been obvious to combine with the prior art filter housing disclosed because the other structural features required by the Claim 1 would not allow for tangential inputs into the filter chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
